

ANNUAL IMPACT REPORT 2025-26

**ONE
FOUNDATION**
International Inc.

MICHAEL CHANT
Board Chairperson

*"The Lord has
done great
things for us,
and we are
filled with joy."*

Psalms 126:3

A WORD FROM THE CHAIRPERSON

Over the past year, One Foundation International has continued to support a diverse range of impactful global projects.

In the Philippines, Pro.Vision Kids fostered family healing and community connection through Sunday gatherings and events such as its memorable father-child day.

In Uganda, Living Gift Ministries helped restore Dorah to health and independence through emergency medical intervention and the establishment of a thriving local juice business, while ABC Children's Aid continued its vital work supporting children in the school system with solid education and practical resources.

Our regional initiatives, including B4T Indonesia and Greenleaf Cambodia, continue to demonstrate our ongoing dedication to sustainable business and livelihoods.

I invite you to explore our shared journey toward the dream of 1,000 Voices - empowering local community leaders to transform their communities from the inside out.

None of this would be possible without the generosity of our donors, the dedication of our international partners, and the trust you place in us. Together, we are investing in local solutions and sustainable change.

MICHAEL CHANT
Board Chairperson
One Foundation International

Last year, our board began a conversation that continues to challenge, shape, and inspire everything we do. The conversation was focussed on a big dream — a dream of 1,000 Voices.

As you read this, I invite you to pause for a moment and imagine what happens when 1,000 local community leaders, indigenous teachers, pastors, farmers, innovators, and grassroots champions are no longer simply passive recipients of external aid, but are genuinely acknowledged, listened to, and equipped to lead.

Imagine 1,000 local pioneers across the communities we serve who, instead of relying on short-term handouts, are backed with practical support, strategic investment, and the tools to build their own sustainable future?

When a single local voice is enabled with dignity and agency, the impact naturally multiplies: their families, their neighbours, their community breaking cycles of poverty for the generations to come.

This dream has become the compass guiding our entire strategy moving forward. We are moving away from the old model of delivering projects from the outside and instead building an ecosystem of investment, digital connection and peer support that creates space for local leaders to rise, collaborate and transform their own communities from the inside out.

The year ahead will be an important one for One Foundation International. We are refining our vision, strengthening our partnerships and preparing to launch a new communications framework that will more clearly articulate who we are becoming and the impact we believe is possible. This is not simply a change in language. It is a deeper commitment to a future where local people lead local solutions.

The dream of 1,000 Voices is ambitious. Yet every movement begins with a single voice being heard, encouraged and equipped. As supporters, partners and friends of One Foundation International, you are helping make that possible. Together, we are investing in people, not projects; in capacity, not dependency; and in lasting change that can impact generations to come.

As I reflect on the opportunities ahead, I am reminded of Paul's words:

"Now to Him who is able to do immeasurably more than all we ask or imagine, according to His power that is at work within us..." Ephesians 3:20

PHIL PYNOR
Executive Officer

1,000 Voices

The dream of 1,000 local voices transforming communities from the inside out.

“Never doubt that a small group of thoughtful, committed individuals can change the world; indeed, it's the only thing that *ever has.*”

— Margaret Mead

LISTEN
We value local voices.

ELEVATE
We champion local leadership.

ENABLE
We invest in sustainable change.

Living Gift Ministries Uganda

Dorah's Story: Restored to Purpose

When LGM Director Louise first arrived in Uganda in 2012, one of the smiling teenagers welcoming her was Dorah. Having recently lost her mother to AIDS, Dorah and Louise formed an immediate bond. With support and determination, Dorah trained as a school teacher and became known for her joyful classroom, filled with well-behaved and enthusiastic children.

Three years ago, Dorah was forced to resign from teaching after developing a life-threatening aortic aneurysm. Support from Living Gift Ministries enabled her to travel to India for surgery, where doctors also discovered she was living with HIV, acquired through an earlier blood transfusion. Last December, with her HIV stabilised, Dorah returned to India for urgent surgery. Her surgeon told her she was within a month of dying, yet by God's grace, Dorah is now close to a full recovery.

Living Gift Ministries has helped equip Dorah with a thriving juice business, and she has also been appointed as Living Gift's in-country Financial Manager. Dorah's story is one of remarkable courage, showing how support can restore not only a life, but also purpose, independence and hope.

Pro.Vision Kids Philippines

Alvie's Story: From Hurt to Hope

When 12-year-old Alvie first came to Pro.Vision Kids, he was quiet and withdrawn, rarely joining in with the other children. Although always neat, tidy and responsible, appearing well cared for, Alvie rarely smiled and seemed to carry a deep sadness. His mother shared that Alvie and his siblings had witnessed frightening incidents of violence at home when their father was intoxicated. The team prayed with the family and encouraged her to seek the help of a social worker.

On Father's Day, the children were invited to bring their fathers for a day of fellowship and fun. Alvie arrived with his father. When asked to share something special about his father, Alvie became emotional and could only offer a shy smile. His father then took the microphone and spoke proudly of Alvie's kindness and responsibility as an older brother.

During the team games, Alvie and his father played side by side with genuine joy and teamwork - and won! That day, Alvie's bright, joyful smile was a glimpse of healing and restoration. Through practical support, prayer and a safe community, Pro.Vision Kids is helping families find hope and experience the restoring love of God.

A bequest with lasting impact.

In October last year, One Foundation International received the capital distribution of a significant bequest valued at approximately \$1.4 million. This bequest was generously gifted more than 20 years ago and held in trust for that period, with the interest generated distributed annually to support the work of One Foundation International.

Upon the trust's maturity in October, the Board undertook a considered review of the funds in light of the organisation's long-term mission and financial sustainability. The Board resolved to preserve and invest the capital for an initial 12-month period while a new strategic plan and accompanying financial model are developed.

This approach recognises the important role that the annual income from the bequest has historically played in reducing administrative costs borne by donors (currently 7%). It also ensures that future decisions regarding the use of these funds are aligned with One Foundation International's charitable purpose, legal obligations, and commitment to responsible stewardship.

The Board remains focused on protecting the integrity of this generous gift and maximising its long-term benefit to the communities and causes we serve.

What we have learned

Over the years, we have come to see that good intentions alone are not enough. Too many projects depend on outside funding and external solutions, making it difficult for communities to thrive independently when donor support ends. Lasting change happens when people are enabled to identify their own priorities, build on their own strengths and lead their own future.

Who we are becoming

This has become the focus of our strategy for moving forward. We are becoming a charity that invests in local leaders and entrepreneurs, supports sustainable community-led solutions, builds partnerships based on trust and collaboration, encourages stewardship of resources, and measures success by long-term impact rather than short-term activity. Our role is to help remove barriers so people can build the future they want for themselves.

What we believe

Every community already possesses valuable skills, resources, and leadership potential, even in situations where poverty and distress are the accepted way of life. We believe sustainable solutions come from listening first, working alongside local people, and supporting the ideas and opportunities that communities themselves identify as important. Rather than creating dependence, our aim is to encourage ownership, resilience, and long-term growth.

Looking ahead

In early 2027, we will begin a communication initiative that more clearly articulates our purpose, values and long-term vision with our supporters, partners and stakeholders. This will help build a shared understanding of the principles that guide our work and the future we are working towards together.

"From him the whole body, joined and held together by every supporting ligament, grows and builds itself up in love, as each part does its work."

Ephesians 4:16

With gratitude

This work has only been possible because of the wonderful community that have chosen to stand around us.

To our sponsors and donors, thank you for the generosity that has made a difference in the lives of children, families and communities. Your giving, through ongoing sponsorship, project funding or support for particular needs and opportunities, has helped provide practical assistance, created new possibilities and strengthen the work of our partners.

To the people who serve within our partner projects, thank you for the care and commitment you bring to your communities. You are the ones who know the people, understand the local realities and continue the work on the ground day after day. We are grateful for the relationships you build and the difference you make through your faithful service.

We are also thankful for those who have supported projects beyond our traditional work - investing in local entrepreneurs, leaders and initiatives that are creating opportunities for people to grow and for communities to become more resilient. These are important glimpses of what can happen when people are supported to use their own skills, ideas and opportunities.

Every contribution, large or small, has been part of the story captured in this report. We are grateful not only for what has been given, but for the trust behind it — the decision to believe that lives and communities can be changed when people are given the opportunity and support to move forward.

As we look back over the year, we give thanks to God for the people, partnerships and opportunities that have shaped this work. We also look ahead with anticipation, trusting Him with the next chapter and the ways we can continue to support people and communities to grow in strength, opportunity and hope.
